

World of Speed

Seventeen PGE Retirees had a fantastic time touring the World of Speed Museum in Wilsonville on March 14 in the year of our Lord 2017.

We experienced Indy Cars, Stock Cars, Drag Cars, Home Built Cars, Older Racing Cars, Motor Cycles, a Hydro Plane, and lots of racing dressed manikins dressed in all different eras of racing.

Our own Speed Ball, Walt Allais flew around the 2.5 mile track in a stock car simulator and finally broke the one minute mark. Great job Walt.

We viewed speed from the late 1800's right up to present day. The changes in size, designed, weight, safety, all the imagination that has caused the advancement in racing and racing vehicles.

Come and join us for our next tour of the Western Antique Aeroplane & Automobile Museum in Hood River on Thursday April 13. We have lots of fun getting together.
